

**PENCIL
US IN...**

...FOR YOUR FREE MARKETING COMMUNICATIONS REVIEW

Sharpen your marketing with our **free review**. Give us 20 minutes of your time (over the phone or in person) and we'll look at the channels you're currently using and provide a written, budgeted report on how you can join things up and optimise your spend.

Call us on **023 9244 9655** or go to **www.harvestpr.co.uk** and fill out our offer form. We'll do the rest.

SHARPENING YOUR PR PROFILE

We help our clients achieve the right press and social media profile to get noticed. We can also win you an award or two, run memorable sales/stakeholder events and target the people who matter to you - through content marketing, editorial, interviews, speeches, blogs, website copy and case studies. We'll give you a distinctive voice online, in print and upfront.

CONNECTING YOU THROUGH VIDEO

Our broadcast background means the videos we create demand to be shared. Our in-house team can help you harness the power of video and animation, through high production values that excite (including CCA-licensed drones) and social distribution channels that target customers and stakeholders. And if you want to stream an event, we do that too.

DEVELOPING YOUR DIGITAL EXPOSURE

Our integrated, online media campaigns target web-based media outlets and news aggregators to optimise the effect of conventional media activity. We also create cost-effective, fully responsive websites and plan and implement email and online marketing campaigns, with detailed impact reports.

CREATING CONTENT MARKETING THAT WORKS

Harvest creates the content to help make your marketing activity fly. From graphic design concepts and copywriting for brochures, flyers and advertising to exhibition stand design and management, newsletters and e-shots, we can be your creative marketing department or work in partnership with your in-house team.

LET'S WORK TOGETHER

Harvest delivers more than just good PR, video, content marketing and digital exposure. We think strategically to create campaigns that have an impact on your business – no matter how your customers and stakeholders consume news, information and marketing content. As experts in joining up all communication media, we know we can deliver results in a cost-effective way.
